

## Urge Judge to **DENY** Piñon Ridge Uranium Mill License

Judge Richard Dana will be the independent hearing officer for the formal hearing on the Piñon Ridge Uranium mill application. The hearing will be held Nov. 7-12 in Nucla, Colorado. This is our final opportunity to express our concerns about building a new uranium mill in a region that still suffers economically, environmentally and health-wise from the radioactive waste left after the last uranium bust 35 years ago. [Sheep Mountain Alliance](#) and other "official parties" are preparing expert testimony, but THE JUDGE NEEDS TO HEAR FROM YOU!

**SEND AN EMAIL:** If you are unable to attend any of the public comment sessions in person, [please send Judge Dana an e-mail \(click here\)](#) before **November 12** to show him that Coloradans are still concerned about the negative impacts the uranium industry left in our area and ask him to deny the mill application or impose strong safety and financial security requirements. Additional talking points about the proposal are available on the [WCC website](#).
